ABOUT ME

Product Manager at Google specializing in B2B agentic AI systems and LLM-powered products. Drove 0→1 AI products from prototyping, prompt design, and evaluation to large-scale launches. Built AI agents combining reasoning, tools, and user interaction flows to solve complex, high-stakes business problems.

WORK EXPERIENCE

Google | *Product Manager* | *AI Agents - Google Ads* July 2025 - Present

- **Led product strategy for a multi-agent system** automating complex statistical modeling and cross-channel budget optimization for advertisers, driving impact within a **~\$3.3B ARR business area**
- **Built and scaled 0→1 AI agent capabilities** with a **cross-functional team of 10**, defining agent behaviors, tool orchestration, user workflows, and evaluation frameworks to ensure accuracy, safety, and usefulness
- **Launched a specialized budgeting agent from 0→1** to 30 flagship advertiser properties within the *Ask Advisor* surface, enabling advertisers to plan and optimize marketing investments across media channels
- **Shipped an AI reporting agent** to 300+ customer accounts, translating high-stakes, complex measurement data into actionable natural language insights via **rapid prototyping, prompt engineering, and evaluation**

Google | *Associate Product Manager (APM)* | *Consumer AI - Search* July 2024 - June 2025

- **Led product definition and evaluation** for **LLM-based** recipe summarization feature in Search, identifying user frictions and owning evaluation frameworks; drove **+0.76% visit uplift** in a 10% traffic experiment
- **Launched AI-organized search result page** for visual idea exploration via **iterative prompt tuning** and side-by-side loss analysis, driving **+0.32% growth** in global markets
- **Launched dynamic item-edit capabilities for LLM-based meal planning**, enabling users to iteratively refine **AI-generated recommendations** through conversational follow-ups and contextual UI guidance

Google | *Associate Product Manager (APM) Intern* | *Gaming experience - ChromeOS* May 2023 - Aug 2023

- Spearheaded the **product requirements** and development of Dynamic Refresh Rate features to optimize cloud and native gaming performance on Chromebooks
- Defined **system behavior** and **UI/UX switching logic** to balance hardware-level technical constraints and user experience

ByteDance | *Product Management Intern* | *Music Streaming App - Resso* April 2021 - July 2021

- Led development of **automated reporting workflows** serving **100+** music label partners
- Redesigned the reporting operations, reducing cycle time from **40 → 20 days** and built internal data-validation tools to reduce manual auditing time by **50%**

LEADERSHIP

Milk+Honey Ordering App | *Founder* November 2022 - May 2024

- **Founded and launched an online ordering platform** for a campus boba shop, reducing customer wait times and improving operational efficiency; adopted by 500+ daily users
- Led a team of 6 to **build the product from 0→1** across both consumer-facing ordering and store management systems, owning ideation, product design, testing, launch, and growth

EDUCATION

Pomona College, *Bachelor of Arts in Computer Science, Minor in Economics* May 2024

GPA: 3.97/4.0 | **Major GPA:** 4.0/4.0 | Cum Laude | **Coursework:** Human Centered Research, Data Structures, Algorithms, Computer Systems, Computational Design

TECHNICAL SKILLS

AI & PM: Prompt Engineering | GenAI Prototyping | AI Evaluation | UI&UX | Data Analysis | A/B testing

Coding Languages & Tools : Python | Java | C | CSS | React | Typescript | Go | AI Studio | Claude Code | Figma | Cider | Git | Firebase
